

PRACTICE NEWS – SUMMER 2016

ANNOUNCING THE OPENING OF THE NEW HOME FOR THE ERIC MOORE PARTNERSHIP MEDICAL PRACTICE - THE NEW MEDI- CENTRE WARRINGTON - OPENING SEPTEMBER 2016

**The old Eric Moore Health Centre
Warrington 1969 to 2013 - 47 years.**

Tanners lane site Demolition- Dec 2015

**The New Medi-Centre, Warrington.
Completed - August 2016. Full GP healthcare services commence - 8th of September 2016**

An exciting new lease of life for the old Eric Moore Health Centre as the new modern and state of the art healthcare facility

Medi-Centre - Warrington 1, Tanners Lane, Warrington, WA2 7LY

Dr Rajkumar and the Eric Moore Partnership Medical Practice team are delighted to advise you that we are nearly ready to move from our temporary premises in Bewsey street and welcome you to access your healthcare services from the new "Medi Centre" on the old EMHC Tanners Lane site.

We are aware that many of you have waited for many years to see this vision become a reality, we are delighted that despite multiple challenges we have successfully taken the build project from concept to completion and eventual readiness together with our patients. We are confident that it will have been "well worth the wait" as the new build facility has been designed with the healthcare needs of the local population of Warrington and its evolving needs in mind. The Practice team are very excited at being able to offer our full range of primary healthcare services from this new site and we shall be looking forward to welcoming more services into the new building to support patients locally over the years.

Transitional Arrangements for Bewsey St- Please remember Orford Jubilee site remains open as always to support patients through and after transition into the new build.

The temporary practice site of 74 Bewsey Street premises will close for patient access on Friday 19th August 2016

Full service will be available for all Eric Moore Partnership patients from our **Orford Park** branch site as usual from 0800am to 2000pm Monday to Friday and Saturday Mornings.

The Practice Telephone Number remains as **01925 843883** and this number will transfer to the new site too.

The "**Medi Centre**" premises will open for patient services during September 2016 (date to be confirmed)

Services will then also continue to be offered from our Orford Park premises as Eric Moore Partnership will remain a multi-site Practice and offer healthcare services to our patients from across Warrington.

Though the multi-site practice will offer services and registration to all patients, our target population is primarily - the town centre area, Bewsey, Whitecross, Dallam, Longford, Winwick, Howley and Orford areas of Warrington.

All registered patients can access services from both sites - the Medi-Centre on Tanners Lane as well as from our Orford Park branch site.

New GPs, Nurses, Healthcare Assistants and Patient Care Advisors joining us in the new Centre :

The Practice pleased to advise the appointment of 2 new GPs joining the current Practice team in August 2016 - **Dr Oria Mariscal and Dr Ketaki Pal**. Both GPs are looking forward to working with our current team of GPs and Nurses and serving our Practice patients from both the Medi Centre and Orford Park premises.

The Practice is also delighted to advise that we also have a new Practice Nurse, **Kate Jacobs**, and a new Healthcare Assistant, **Beverly Matthews**, also joining us in late August/early September to further complement the existing team of General Practitioners, Senior Nurse Clinicians, Practice Nurses and Healthcare Assistants.

In addition we are also recruiting additional Patient Care Advisors who are usually your first port of call when you access the practice.

Moving with the Times :

As the new building's public areas were all designed and planned for by our very own patients through the very active **Patient Participation Group**, this building is not only a modern and pleasant healthcare environment, but in addition has been designed around the patients of all ages and needs.

The new building shall host:-

- full WiFi connectivity (for patients this will be activated later this year),
- telemedicine facilities
- online consultations
- telephone consultations
- online appointments access and cancellations
- patient self check in screens
- disabled access, lifts, enhanced hearing loops
- children's play section in waiting area
- self measurement (telemetry)
- access for patients to seek enhanced health facilities.

We have already started piloting the video consultations with certain patients - where the patients have an App based video consultation and receive electronic prescriptions from their own GP or Nurse Clinician no matter where they dial in from (even from abroad).

More in the next bulletin when we can report on the pilot and its outcomes.

Thank you

The Eric Moore Partnership Practice Team
